Midland to host Figure Skating Regional Championships!

The Midland Figure Skating Club is proud to announce that it will host the 2009 Eastern Great Lakes Regional Figure Skating Championships, sanctioned by U.S. Figure Skating, on October 10 - 14, 2008, at the Midland Civic Arena.

Nearly 500 high level amateur figure skaters from Alabama, Indiana, Kentucky, Michigan, Mississippi, Ohio, and Tennessee will compete for regional championship titles and also for the opportunity to continue on to the national championships or even world level competition. Scott Hamilton, Michelle Kwan, and all the other wonderful U.S. figure skaters began their quests for national and international titles at U.S. Figure Skating Regional Championships.

It is thanks to donors like yourselves that this event has come to Midland.

Several years ago when Fast Ice, Inc. and the City of Midland committed to raise the funds to build our beautiful new three sheet arena, we promised to bring events like this to the community. There will be close to 500 skaters coming to town with their parents and coaches as well as more than 50 officials from all over the country. We are seeking your support to make this a premier event for these guests so that we may continue to attract future competitions.

With your help the financial success of this event will enable the Midland Figure Skating Club to make the sport of figure skating more affordable and effective for our area youngsters. We will be able to reduce the costs of our programs while continuing to develop and expand both our programs and our training facilities to serve all levels and goals of our skaters.

Sponsorship opportunities:

Our premier sponsorship drive is underway with our donation and recognition structure ready to meet your individual, organization, or business circumstances. Please review our brochure and consider the level of support you are able to provide. In the short term your generous contribution will help us produce a wonderful competition. In the long term you will help both our skaters and our community.

Thank you so much for your support!
